Caring, Compassion, Innovation

FOR IMMEDIATE RELEASE:

Imperial Collection Canes Let Users Step Out in Style!

Buena Park, CA - November 10, 2010 - Seniors needing a little assist can now do so with style! The Imperial Collection canes from Sky Med put an elegant spin on walking canes with a stunning combination of materials, color and design.

Sky Med, recently established in southern California, is coming to the forefront as a home medical equipment innovator, creating new products for the industry that provide value, quality and innovation. Their products offer users new ideas in home medical equipment, value-added options, and stylish takes on everyday needs.

Sky Med is pleased to offer the elegant Imperial Collection, a sophisticated blend of style, function and convenience. Imperial Collection canes are constructed of super strong carbon fiber, which also offers the benefit of reduced weight. The smart derby-styled handle is not only stylish, but offers an anti-shock system that eliminates hand numbness, tremors, and the shoulder pain and ligament strain associated with repetitive motion injuries. A compact quad tip offers enhanced stability while maintaining a sleek profile. As with all Sky Med products, it also includes a limited lifetime warranty.

Imperial Collection derby canes fold for convenience, are easily stowed in a purse or tote, and are available in four colors, including Black Diamond and Ruby. With a product weight of only 8 ounces, these canes are a perfect fit for almost all users, and a stylish companion that can dress up or down with the best of them! The canes are available with an attractive gift package, making them perfect for holiday giving.

National Sales Manager at Sky Med, Emma Lai, has brought together and works closely with a talented team of designers who are dedicated to using their experience and creativity to serve the HME industry and its end users. Said Lai, "Projects like the Imperial Collection are fun to bring together, letting the team work not only on creating functionality, but also flair!"

Sky Med products and innovations can be seen at Medtrade Atlanta, November 16-18, 2010, at booth 2526.
