**FOR IMMEDIATE RELEASE:**

## **Bijoux Collection Canes Puts Some Sparkle Back in Your Step!**

Buena Park, CA - April 10, 2011 - As our population ages, we have more seniors who maintain a more active profile, and want to keep the "style" in lifestyle!

Sky Med, a southern California company, is gaining recognition as a home medical equipment innovator, creating new products for the industry that combine value, quality and innovation. Their products offer users new ideas in home medical equipment, value-added options, and stylish takes on everyday needs.

Sky Med is pleased to offer the beautiful Bijoux Collection, a marriage of quality and high style for cane users. Bijoux Collection canes are constructed of beautiful aged hardwoods, known for their strength and durability. The canes feature staffs of Canadian maple, known for its excellent tensile strength and shock resistance. The stylish design includes a derby-styled handle in jet, as well as one in beautiful fine-grained rosewood. Both handles and staff are set with dazzling crystal accents, for both fashion and function!

These non-height adjustable canes come ready for use, equipped with a high quality rubber tip. These canes are ready for an afternoon tea, or an evening out on the town, the epitome of elegance and sophistication. As with all Sky Med products, Bijoux Collection canes also include a limited lifetime warranty.

National Sales Manager at Sky Med, Emma Lai, works closely with her team of talented designers who are dedicated to using their experience and creativity to serve the HME industry and its end users. Said Lai, "We've enjoyed working on projects like the Bijoux Collection, which deliver the high quality Sky Med is known for, but wrapped up in a fun package for end users."

Sky Med products and innovations can be seen at Medtrade Las Vegas, April 13-14, 2011, at booth 2031.
